

# **Introduction and Commission Statement of the Sina Educational, Treatment and Research Center**

## **Introduction**

Sina Educational, Treatment and Research Center was established in ۱۹۲۲ by the aim of providing aid and treatment under the title of the Aid and Treatment Center that provided aid in roads and incidents with general clinics under the title of *Tabriz Red Lion and Sun Society*

## **Introduction and Record**

The current operation building was inaugurated in ۱۹۶۱ as the main building of the *Tabriz Red Lion and Sun Society* that was one of the complete and equipped building at that time with wards ۱, ۲ and ۳ including obstetrics, gynecology, neurology and general surgery with two operating rooms with the primary aim of treating the burn patients.

By changing of the name of most centers and streets and former organizations acted under the *Iranian Red Lion and Sun Society* to *Red Crescent*, this center continued its activity under the Health and Welfare Organization including two organizations of Health and Welfare. This center was converted into educational and treatment center in ۱۹۹۵ and became a center of Tabriz University of Medical Sciences.

The first laparoscopy surgery was done by Dr. Kosheshi in ۱۹۸۸ in this center. After abolishing of Haft-e-Tir Hospital (former Babak), the skin ward was inaugurated in ۱۹۹۷ and it is one of the outstanding skin centers.

The first endocrinology ward, specialized and sub-specialist endocrinology and diabetes clinic and office of endocrinology ward started their activities independently in ۲۰۰۴ by Dr. Amir Bahrami, the professor of endocrinology in this center and these wards were transferred to Imam Reza Hospital.

This center is in the rank of the first centers that plastic and cosmetic surgery was performed by Dr. Mortaza Danesh and it is the first center providing clinical and hospitalization services of rheumatology by experienced rheumatologists. This center has started its services to the patients in poisoning location as the main center in the North-West of Iran since ۲۰۱۶ by establishing poisoning ward.

Sina Educational, Treatment and Research Center is the only hospital in the North -West of country providing services in skin, plastic and cosmetic surgery and also skin ward and burn operating room. This center has MDR which is unique in North-West of the country.

Sina Educational, Treatment and Research Center is the only general center providing specialist and super specialist services in skin, burn and poisoning in the North-West of the country with more than nine decades record in providing preventive treatment and educational services. By employing skilled, committed and competent human force and using maximum resources, equipment and advanced and latest facilities, this center provides outpatient, hospitalization and para-clinical services for all people and referrals in safe and effective ways emphasizing protection of values and human dignity.

### **Vision Statement**

Our goal is to achieve the highest level and grade of establishing qualitative standards by emphasis on individual and organizations capabilities and talents and using scientific management methods and principles and to be well-known in providing educational and research services to the students, assistants and other medical and para-medical groups as one of the top centers in Iran.

## **Values**

- Observing the Islamic and humanistic values and principles
- Adherence on observing the patient legal chart and client respect
- Promotion of teamwork culture

We respect on these values and make effort to expand and nourish these values in all levels.
